SPANISH CHIVALRY.

The Sneaking Cowards Shoot at a Funeral Party.

After the battle at Guantanamo a funeral party of Americans was proceeding to the edge of a hill to the northward of the camp to bury the bodies of Surgeon Gibbs and Privates McColgan and Dunphy. A squad of marines from the Texas acted as escort.

A stretcher bearing the bodies had just been lifted to its place, and Chaplain Jones, of the Texas, was about to begin reading the burial service, when the Spaniards, who could see what the men had gathered for, gave a fine exhibition of their boasted chivalry by shooting at the funeral party. All sprang to arms save the chaplain and escort, who stood still. Volleys from Colts, howitzers and rifles were poured into the chapparral, making it hot for the dastardly Spaniards. Then, to add to the fusillade, in honor, almost it seemed, of the dead heroes, other Spaniards across the bay began firing at the dispatch boat, which challenge was answered by the Texas with six-pounders. The Spaniards were driven from that side for the rest of the day. Shortly the firing ceased and the funeral was resumed. Chaplain Jones had nearly finished reading the service when the enemy's rifles cracked to the east, but the chaplain kept on, and when he finished, the men again took their rifles and resumed the work of watching. Meanwhile the Panther shelled the brush to the east for half an hour, and from that time on less trouble was experienced.

In the afternoon tents were all struck and carried down near the beach, but were not again pitched. The Spaniards fired on the flag when it was raised, but were soon silenced. The Panther and Marblehead resumed firing at 5 o'clock, and then all the Spaniards disappeared.

Little is known of the enemy's dead, but buzzards were seen gathering over the hill.

THE CRACK COMPANY.

The Universal Verdict Concerning Our Boys at Camp Russell.

As a rule Greensboro people are not a boastful people; but it is with pardonable pride that we all speak of the splendid bearing and high standing of the Greensboro boys, Company D, of the second regiment, now encamped at Raleigh. They always elicit the heartiest applause in the drill maneuvers or on dress parade.

Everybody applauds them. All are struck with the soldierly appearance and gentlemanly demeanor of the Guilford boys. Captain Gray and the other officers must needs be proud of the boys when they hear so often the verdict that company D is the crack company of the regiment.

When the second North Carolina regiment goes to the front you may expect to hear a good report from Company D. There will be no skulking and no wavering. They have the spirit and fire of true American manhood, this may be truly said of the others also, but we are speaking specially of our own boys and those who enlisted in Captain Gray's company.

The Telegram sends them, both collectively and individually, the greetings of Greensboro, and congratulates them, from the gallant captain to the humblest private, on being the crack company in the regiment.

All hail to Company D!

Battle Ground Bullets.

Mr. W. Giles Mebane has been appointed chief marshal for the Battle Ground celebration, July 4th, and he will be aided by a number of our young gentlemen who will do honor to the occasion.

A number of our young ladies beautifully apparelled, suitable to a patriotic occasion, will join the marshals in the procession to the pavilion, escorting the orator of the day to the grand stand.

Governor Russell is expected at the celebration and a number of distinguished gentlemen of the state.

A magnificent ball will be given under the auspices of the Battle Ground company, and managed by the marshals and others. It will be chaperoned by ladies of the city.

There is more to be seen at Norfolk than any other seaport town. You can spend a week and then not see all the sights. We give you four days. Round trip for \$3.50.

By Cable THE TELEGRAM.

Havana, June 14 via London June 15—Captain Ludlow came into port here under a flag of truce to negotiate under instructions from the United States government for the exchange of Lieutenant Hobson and the crew of the Merrimac now prisoners at Santiago. Captain-General Blanco replied that he had received no instructions from his government and so was not empowered to treat for the exchange.

CUBANS' PITIFUL FLIGHT.

Kingston, Jamaica, June 15—Sister Mary Wilberforce of the American Red Cross Society, who was expelled from Cuba by order of General Blanco, has arrived here on the British cruiser Talbot. Three hundred engaged in the fight and had to be quelled by a detail of troops. Seventy-five of the rioters were arrested and twenty are in the hospitals as a result of injuries received in the brawl.

STILL ANXIOUS.

Washington, June 15—There is anxiety in military circles here over the marines who are hemmed in by the Spaniards at Guantanamo bay. It is thought that General Shafter on his arrival may also find himself outnumbered.

They Favor an Alliance.

Toronto, June 14—Two important church conferences here expressed themselves strongly in favor of an Anglo-American alliance today. The Toronto Methodist Conference discussed the matter and there was only one dissenting voice, that of the Rev. E. S. Rose, who thought that perhaps the United States were a little hasty in their professions of friendship for Great Britain, and that the talk of an alliance was largely influenced by the present war. All the other members of the conference favored the resolution.

The Congregational Union passed a resolution in which the members said they beheld with reverent wonder the crumbling of ancient empires and strongly approved of an Anglo-Saxon alliance.

Hurrah for Blue!

Hurrah for Blue! He made a detour of Santiago harbor and counted the Spanish warships bottled up there. He is a South Carolinian. Bagley, Hobson Blue! Give us a Southern boy for a ticklish job.—Charlotte Observer. Blue is a familiar name to this writer. The good old Scotch settlements of Moore, Richmond and Robeson counties are largely populated with people of that name. It is not at all improbable that the above mentioned Blue is a descendant of North Carolina stock. Any way we heartily join the Observer in saying "Hurrah for Blue."

IT WILL BE HAWAII U. S. A.

Resolution Will Pass Congress Late Today.

Manila Troops Gone—Cadiz Fleet Lingers—Another Coaler Caught.

No News at Port au Prince.

By Wire THE TELEGRAM.

Washington, June 15—A bill has passed the house granting American registers on foreign steamships, as specialties and unionists to be used on transports.

Debate on the Hawaiian annexation resolution has been resumed. Congressman Fitzgerald, of Mass., in argued in opposition because it violated the fundamental principles of the democratic party, viz: that the government rests upon the consent of the governed. The forty thousand natives in Hawaii have not been consulted in the matter of annexation.

Congressman Berry, of Kentucky followed Mr. Fitzgerald, favoring annexation. He was confident that time would show the opponents of the move their error. A vote will be taken before adjournment this afternoon. It will undoubtedly be adopted by a large majority. Practically all the republicans and a number of democrats will vote in favor of the resolution.

The fight in the senate will begin immediately. The only danger confronting the resolution there is the possible attempt at filibustering to prevent a quorum on the final vote.

SAILED FOR MANILA.

San Francisco, June 15—The second part of the Manila expedition started this afternoon. It is supposed that it will go via Honolulu.

"INDEFINITELY POSTPONED."

Madrid June 15—The departure of the Cadiz fleet has been indefinitely postponed. The reason given by the officials for this change of programme is the inefficiency of the fleet.

ANOTHER STEAMER CAPTURED.

Key West, June 15—The British steamer Twickenham has been captured near Santiago de Cuba while attempting to run the blockade of that port with a cargo of coal intended for Admiral Cervera. She arrived here this morning with a prize crew aboard.

NO NEWS.

Port au Prince, Hayti, June 15—Up to 8 o'clock this morning no news has been received from Guantanamo or Santiago de Cuba.

The Board of Strategy.

Col. Al. Fairbrother, of Danville, in the last issue of his Fairy Go, perpetrated the following upon an innocent and unsuspecting public:

"The board of strategy: Acting admirals of the United States navy."

Late Telegraphic Briefs.

American boats have dragged the harbor at Guantanamo but found no mines. Everything is ready for the landing of troops.

The French cabinet has resigned.

The rumor that five regiments have been ordered from Camp Thomas is not confirmed.

Army officers say that Shafter's swift ships, under strong convoy, are pushing forward with all speed to the relief of the marines and will reach Guantanamo tomorrow.

A despatch from off Santiago states that Sampson has cut off all supplies for Santiago and troops there are on famine rations. The Vizcaya is facing the port entrance, the Oquendo with the Colon and Theresa the other entrances.

Chairman Hull says another call for 50,000 volunteers will soon be made.

Sampson cabled this afternoon that the Cubans have come to the aid of the marines at Guantanamo. Urgency deficiency bill carrying \$224,000,000 was reported to the house today.

Orders were issued to General Copinger today to prepare the fourth army corps for Porto Rico.

It appears that beer is becoming an important factor in education in Munich. Four of the student corps of that city are erecting \$40,000 club-houses adjoining the new Hofbrauhaus. Nearly ten thousand quarts of beer were consumed at the opening on a Sunday afternoon of this year's Hofbrau beer season, the beverage having been tested on the day before by 800 officials, headed by the Governor of Upper Bavaria and the finance minister.

TO BLOW UP THE CZAR.

Plot to Assassinate Him at Consecration Services.

By Cable THE TELEGRAM.

London, June 15—Advices from St. Petersburg tell of a plot to assassinate the Czar at consecration services at a church in Tsarskoe Seloe, by undermining the spot where he was expected to stand. The attempt is believed to be the work of the secret police for the scare given them in view of the abolition of a lucrative post in that department.

Charmingly Entertained.

The social tea given last night at the home of Miss Ruby Glascock, on Asheboro street, by the Young People's Missionary Society of Centenary church was one of the most enjoyable events in the history of the society. A large number of the young people of the church were present and for three hours were delightfully entertained by the charming hostess. Nothing was left undone that would add to the enjoyment of the occasion. At 10:30 o'clock the guests assembled in the spacious dining room where tea was served in the most pleasing manner. On each table was a mite box which was not neglected by the young men of the party. Many expressed their intention to join the society at its next meeting. At 11:30 the guests departed with many expressions of having spent a most delightful evening.

Mr. Leiter can no longer justly complain that he is a target for innumerable shafts of envy.

Somehow there is not so strong a smacking of pork in recent Spanish references to Americans.

It is not either very surprising or very distressing to learn that Spain is not pleased with our method of warfare.

If Cervera's squadron had the climbing qualities of the San Francisco he could take the overland route to Havana.

Where is General Garcia while a force of Spaniards is attacking the Americans marines thirty miles from its base of supplies?

A French corporation proposes to build a railroad across the English channel under water. The two things have long been associated in the minds of Americans.

In the heat of the discussion there is some danger of forgetting that Spain is not the only one who has a say as to when the time for peace has arrived. Uncle Samuel may adhere to his decision to kick the Spaniard out.

"Old Hatch," whose operations in wheat are now confined to the preparation of griddle cakes from the finished product, must have indulged in several quiet chuckles and wise waggings of the head in the past few days.

The Spaniards should be allowed to approach that cable house at Guantanamo under a flag of truce. The world is entitled to the victorious chant the wires would sing around its bulging bosom and Madrid is entitled to another eruption of joyous emotions.

Washington, June 13—Ambassador Hay cabled to the state department today that it may be three or four weeks before the Cadiz squadron will leave Spain.

And it may be three or four generations and most probably will be. Even the Spaniard has some small quantity of common sense. To suppose that Spain will send her only remaining ships to certain capture or destruction is to suppose the cabinet at Madrid is composed of lunatics.

Some journals speak of the fighting at Guantanamo as though it were a defeat for the Americans. As a matter of fact for 900 raw troops to sustain an all night attack from 2,000 old hands and beat them off with a loss of four men does not seem to have been a very shabby piece of work. We are gravely assured that Washington has been "shocked and sobered" by the report that three Spaniards have dared to attack one American. Apparently Washington, which has never been exactly in the fore front of battle, is easily shocked. That it is easily sobered we take the liberty to doubt.

The question of how much noise the Salvation Army is entitled to make in its campaign against wickedness will probably have to be determined by the courts.—Philadelphia Record.

The question of how much noise the Salvation Army is permitted to make is and will be determined only by physics and physiology; by the vibratory capacity of base drums and the aerial capacity of human lungs. No court is competent to determine it; only a board of mathematical geniuses and a set of logarithmic tables can rise to the requirements of the occasion. And in shot guns not courts relieve legitimately and efficiently responses.

Republican organs have "pointed with pride" to the high price of wheat as a legitimate result of the triumph of republican policies in national affairs. They have stated with much emphasis that "dollar wheat" refuted all democratic argument and impressed much needed political lessons upon an ignorant and head strong people. If these much-speaking journals were sound in their premises then 85 cent wheat is also the product of republican legislation and the farmer is being robbed of fifteen cents on each bushel of wheat he markets. It is a very remarkable fact though that the rise in the price of wheat was solely due to the wisdom of republican statesmen while the fall in price is due to the collapse of speculators or to the "laws of supply and demand over which legislation exercises no control." The republican statesman and writer on economics should be supplied with a very elementary treatise on logic.

The so called Anglo-Saxon alliance will be strong in inverse ratio to its formality. History has shown often enough how valueless are treaties where racial instinct and interest run counter to them. If on the other hand these ties bind together Americans and Englishmen they are sufficient in themselves to secure unity of action in any great crisis threatening the life of either nation. While there is no specific alliance the statesmen of each nation will be left free to shape the course of public policy by the developments of the time. Just as England would not look idly on while an European coalition was attacking us just so this country would have a say if an attempt should be made to wipe out England. If England had been the object of a proposed attack instead of this country the United States would most certainly have sided with her. A shrewd appreciation of each others virtues and a kindly forbearance toward each other's faults are much more powerful to keep the two peoples at peace than any arbitration treaty would be. Meantime coalitions will think twice before attempting to bulldoze either—or be supplied with some full grown regrets afterward.

banks. A tax of two cents is imposed on each bank check and the paterfamilias who formerly gave a check for \$2.77 to the grocer and \$1.33 to the butcher, and so on through the round, will cumber his pockets with change and the bank clerks can all go fishing before three o'clock. Thus will the tax gatherer find his harvest light.

One of the drawbacks to Greensboro has been, and is, the ridiculously high figure set upon real estate when a prospective citizen appears to look for a home site. In a growing town it is natural that real estate should be built up but by setting the price above what it should be the purchaser is frightened off and possibly a good citizen lost. Not all owners of real estate do this, but some do and it operates distinctly against the growth of the town and so injures the owners of vacant lots along with others. The glad hand extended to new comers is not always so glad as it might be though from the larger part of the community a warm welcome may always be expected.

The decision to make the new companies under the second call colored companies gives members of that race an opportunity to show their patriotism and love of glory. One of the companies is to be organized here and the young men of the race should respond to the call promptly. The pay, the fare and medical attention will be quite as good as many members of either race are accustomed to at home while, owing to his immunity from some of the most dreaded diseases prevalent in Cuba, campaigning in the island will be much less dangerous for the colored than for the white man.

Lawyers and judges are thought by many people to have about the softest berths in the ship. If the thinkers would try the job for a single day that is cut out for them just now they would change their opinions. A court house, when the mercury is dancing in the nineties, is about the least likely place to enjoy one's self in that could be found. It is always redolent of stale chewed tobacco and staler legal maxims, both of which are a weariness of the flesh. The only man who can rightly claim to be unluckier than either judge or attorney is the unhappy target in the jury box and the unhappy target in the witness chair.

Something to Depend On.
Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with la grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into a consumption. Having Dr. King's New Discovery in store, and seeing the trial of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to do this good work. Try it. Free trial bottles at C. E. Holton's drug store.

Mrs. Thompson's Remedy

Hasty, Richmond Co., N. C.,
May 27, 1898.

Mrs. Joe Person:
Your medicine has saved me (I am sure) years of suffering and heavy doctor's bills. When I began to take the Remedy I was sick all the time with troubles peculiar to my sex. I had run down until I only weighed 115 pounds. I took ten bottles of the Remedy, and am now a well woman and weigh 170. I cannot express my gratitude to you and wish suffering womankind everywhere could be induced to give it a fair trial. I have had seven children, have lost three trying to raise them by hand, and raised three on the bottle. The baby I have had since taking Mrs. Joe Person's Remedy is the first one I have been able to nurse from the breast, and it is a fine, fat baby. Every nursing mother who suffers from any woman's trouble ought to give Mrs. Person's Remedy a fair trial. Before taking it I dragged through my work, now I do it. It gave me good sleep and appetite and put me in perfect health. My neighbors call Mrs. Person's Remedy "Mrs. Thompson's Remedy," because I sing its praises so much to everybody.

Governor Leedy, of Kansas, who is being roundly scored because his troops were in a ragged condition when they arrived in San Francisco, has made arrangements to furnish each Kansas soldier with an aluminum identification badge to be hung about the neck. The badges will doubtless prove useful should any of the wearers fall on the battlefield, but it would seem that Kansas should have provided her soldiers with necessities before investing first in luxuries.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for 20 years. Respectfully, Mrs. Mary A. Beard, Claremore, Ark. Sold by C. E. A party of English explorers recently discovered that nasal flute playing is one of the customs of aboriginal Australians. A pair of young natives were selected to furnish music for a feast in which the explorers participated and the Englishmen were surprised to see them hold their simple, forest-made flutes to their noses. With their mouths closed they inhaled through one nostril and exhaled through the other.

The Horrors of Nervousness.

Those who are going through the indescribable terrors of this dreadful disease, require no description of the agonies they constantly suffer. But why suffer? Good blood gives good nerves; and

gives good blood. It is a nerve strengthener and restorer, the efficacy of which cannot be over-estimated; when it is learned that its absolute freedom from poisonous drugs or opiates, makes it safe for use in the hands of sick or inexperienced persons, there is an increased appreciation of it. JOHNSTON'S SARSAPARILLA is a specific for impoverished or impotent nerves; it feeds the nervous system to high health, provides for physical and brain endurance, cheerfulness, happiness and energy.

IN THE FOCUS.

Is This the Reason Our Actors Like the Center of the Stage?

Perhaps the fondness of certain actors today for the center of the stage is a survival from the time when no other position was adequately lighted. In the early days of this century, before the introduction of gas, the footlights consisted of half a dozen or more oil lamps, and the point where their rays converged was very properly known as the "focus." Here all important passages of the piece had to be delivered, since elsewhere the accompanying play of feature was not assuredly visible. It is told that when one of Kean's admirers complimented him at supper after a performance of "Othello," saying that in the great scene with Iago he almost thought the tragedian would strangle the villain, Kean answered: "Confound the fellow. He was trying to get me out of the focus." Under the electric light the face of the actor can now be seen clearly in the most remote corner of the stage.—"The Conventions of the Drama," by Brander Matthews, in Scribner's.

Mayor Rose, of Milwaukee, said in a speech the other evening that he wished that every woman whose husband is at the front might wear some distinctive badge, so that he could take off his hat to her.

A committee has been formed in Paris to erect a monument to the three distinguished members of the Vernet family—Joseph, a marine painter; Carle, a painter of horses, and Horace, the most famous, who was a painter of battles. The names of many celebrated French artists are on the membership list of the committee.

BRIEF LOCAL MATTERS.

Hermon Stone, of Reidsville, was in the city today.

Dust and dead flies don't add very much to the handsome appearance of a show window.

Now is the time to get bargains from the Royster stock. See new ad today by M. Royal Farrar, trustee.

Celery plants for sale by J. Van Linley at Pomona Hill Nurseries. See change in advertisement today.

Citizens living on South Elm street south of the railroad would rejoice to see a fulfillment of the long overdue promise to cut down the hill at the junction of Lee and South Elm.

Bottom out? Looks that way. The berry season is on and you need sugar for preserving, etc. Lindau quotes prices in his new ad on first page that will astonish you.

About a dozen soldiers belonging to the Twelfth New York regiment passed through on 36 today going north. It was said they were carrying home a private who had his leg shot off. The train pulled out before the report was confirmed, and it may be a fake story.

U. S. Deputy Marshal G. A. Ashley passed through today having in charge three prisoners from Huntsville, Ala., for the federal prison at Raleigh. They go for one year each for illicit distilling. Two of them were boys about 18 and 20 years old, the other a man of about 60 years.

Henry Smith who has been attending St. Mary's College, Belmont, N. C., arrived in the city last night. He was accompanied by Gaston Lichtenstein, of Tarboro, who has been attending the University of Cincinnati, a friend of his. Both of these young gentlemen stood very high in their classes this year. There was a reception given by Mrs. Adams in honor of these gentlemen at Mr. Smith's home on McAdoo Avenue last night, where refreshments etc., were served.

A Dingy Looking Crowd.

A party composed of twenty-three Italian oyster shellers, enroute from Norfolk to Atlanta, stopped over here between trains this morning. They were as dirty, filthy looking specimens of humanity as you will find in a long search, and not one of them could speak a word of English.

Officer Jordan, by skillful sign making, ascertained their destination and was careful to see that none were left behind when the train came. The reporter saw John Graham heave a sigh of relief as the last one crawled aboard.

It seems that one of them had lost his wife; he had some kind of a document addressed "Chief of Police" which he presented to each darkey he saw dressed in blue clothes. He evidently thought he was in a fusion stronghold.

Sarah Owens vs. Southern.

In the case of Sarah Owens against the Southern Railway company the jury rendered a verdict in favor of the plaintiff for five hundred dollars. The plaintiff was over eighty years of age, one of the old time darkeys. She gave her evidence with wonderful clearness for one of her age and her conduct on the stand won the approval of all as did the verdict. She was represented by Messrs. L. M. Scott, Charles M. Stedman and W. P. Ragan. The defendant was represented by Messrs. F. H. Busbee and R. R. King.

Homing Pigeons.

Mr. W. E. Coffin has received from Mr. D. W. Bussoms, of New Egypt, N. J., fifty-two homing pigeons, which he will turn loose the first fair day. Mr. Coffin estimates that they will cover the distance (about 400 miles) in eight hours.

On a former occasion Mr. Coffin liberated a number of pigeons which were sent him from Baltimore and they made the trip (about 330 miles) in six hours.

Keep the Change.

Mr. Editor—You entirely misunderstood the object of my communication touching what you term the post office nuisance. I did not seek to draw from you an apology to the colored people, nor an acknowledgement of the ability of the race; but since you have seen fit to do both I must admire the manliness of your conduct. The greatest evidence of the true gentleman is his willingness to apologize when he has done one an injustice.

Tyre Glenn.

Go east and see the largest warships now in construction, namely Kentucky and Kearsarge. If you want a good time at the sea shore don't miss this trip. \$3.50 to Norfolk and return.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by C. E. Holton.

WE OUGHT TO HAVE IT.

A Suggestion That a New Circuit Criminal Court be Established.

Owing to the usual crowded condition of the state docket, and the necessary delay in bringing cases to an end in the regular Superior court, we throw out the suggestion that a criminal circuit be formed to embrace Greensboro, Winston, Durham and Reidsville, and perhaps other towns. It will expedite the business of bringing offenders in minor offenses to justice, avoid such long periods of confinement in jail before trial and it is a question as to whether it will cost less than the delay under the present arrangement.

If it will cost as much or more, and at the same time insure a more speedy trial of criminals it should be established. The system of delay, under which we are laboring, (with two or three exceptions where there are criminal courts) is a burden to taxpayers, and is unsatisfactory in many ways.

We will be glad to have an expression of public opinion in regard to this matter. Think of it and discuss it, and if it is a good thing let's get down to business and pull for it.

Jule Reitzel Volunteers.

Several of North Carolina's young telegraph operators have volunteered to go to the Philippines with Gen. Merritt's signal corps. Among the first to volunteer was Mr. J. F. Reitzel of this city. Mr. Reitzel is one of Greensboro's most promising and highly esteemed young men and if accepted may be depended upon to acquit himself with credit. He has been with the C. F. & Y. V. railway for the past seven years and sometime ago was promoted to the position of train dispatcher. He is one of the youngest, if not the youngest, train dispatcher in the state. His many friends here will regret to see him leave, but would not cool the fire of American patriotism in his breast.

Our Telegraphic News.

We rise to announce, if you please, that the Telegram was the only paper in Greensboro, daily, weekly, or otherwise, to give an account of the battle at Calmanera yesterday, which was described as being the fiercest of the war.

Just here we may be pardoned for referring to the fact that we announced the battle of Manila by bulletin, on the day it took place and sixteen hours before it reached here in the morning papers. Recognizing a good thing nearly all the afternoon papers in this state, as well as many others, are taking the Union Associated Press service, which is far and away the best to be had.

Notice.

There will be a meeting of the directors of the Battle Ground company, at the Greensboro National Bank, president's room, Saturday June 18th, at 5 o'clock. Executive committee, Odell, Scott, and Beville are specially requested to be present. Some work to do.

D. Shenck,
Pres. G. B. G. Co.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. For sale by C. E. Holton.
